Additional Comments:

In addition to this form, you will also need to send us a copy of:

- Copy of deed record from Bexar County Courthouse
- Copy of survey, plat or site plan showing on-site sewage system, existing wells, streams, roads, buildings or flood plain with dimensions to each
- If the property is in a 100-year flood plain then submit Bexar County Flood Plain Development Permit.
- Submit a State Well Drillers Report (after completion).
- Submit a copy of the Natural Gamma-Ray Log at a 1" to 20' scale.
- Submit a completed Application to Register a Well.

By signing this form, you declare that you agree to abide by the District's rules and standards, and agree to allow District personnel to enter property to inspect well.

By signing this form, you certify that the information provided is true and correct.

By signing this form, you acknowledge that the District reserves the right, to the extent allowed by law, to adopt, revise, and supercede rules applicable to registered wells and to require the owner of a registered well to obtain a permit if the well is not exempt from the District's permitting requirements and that the issuance of the well registration by the District shall not limit the District's authority to regulate the well or the production of water from the well, unless the well is otherwise exempt from such authority.
